Glazed options

Louvered with airflow

Fire rated FD30–FD240

OVERVIEW

Our LPS1175 SR2 & LPS1175 SR3 security door range comprises single and double security-rated steel doorsets specifically designed for use in locations that would benefit from enhanced protection, with multi-point locking, emergency exit and access control options. Typical applications include leisure facilities, schools and universities, housing association communal areas and general retail outlets. Every door is custom made to suit existing structural openings, designed on a CAD/CAM system and manufactured with CNC punching and pressing facilities.

■ PRODUCT DESCRIPTION

Certified to LPS1175 SR2 and Secured by Design compliant. Security rated for high-risk locations, custom made to suit existing structural openings. All doors are designed on a CAD/CAM system and manufactured with CNC punching and pressing facilities to guarantee quality and long product life.

■ DOOR FRAMES

The welded frame is made from reinforced 1.5mm galvanised steel and a 38mm × 100mm single rebated profile. It is reinforced at the hinges, lock keeps and fixing points.

■ DOOR LEAVES

Manufactured from 1.5mm galvanised attack-face steel with 1.5mm inner face. The composite door leaf is 45mm thick with an astragal lip to the closing edge, weighing approximately 40kg per square metre.

■ HARDWARE

All security doorsets come as standard with a high security certified lock, cylinder and lever handle. Additional locks can be added to single, leaf & half and double doors to increase security. Optional panic exit hardware and access control locking is available.

■ HINGES

As standard, doors are supplied with a minimum of 3 security dog bolt hinges.

■ CILL

All doorsets come as standard with a DDA compliant threshold; other threshold options are available.

■ DOOR OPTIONS

Vision panels in a wide range of sizes and glazing options; louvered panels in a wide range of sizes with or without fly/insect mesh. Side and/or over panels — solid or louvred. Optional extras: additional locking, door closers, limit stays, kick plates, rain deflectors, drop bars, spy holes, finger protection strips and more, available on request.

SIZES Single Door 1180mm W × 2930mm H (max) Double Door 2730mm W × 2930mm H (max) For larger sizes, side and over panels can be used to achieve the required structural opening. Doors can be manufactured to suit any structural opening size — see Bespoke Doorsets. Single door frames come pre-assembled; double door frames come in knockdown form.
